

# 47<sup>th</sup> ANNUAL ADDISON COUNTY REGIONAL FIRE SCHOOL

Sponsored by the Addison County Firefighter's Association, Inc.

**To Be Held**

**April 29th & 30th, 2017**

**At**

**Mount Abraham Union High School  
220 Airport Drive, Bristol, VT**

The Addison County Training Committee is pleased to dedicate the 47<sup>th</sup> Annual Regional Fire School to Darwin and Lucille Kimball.

With their family Darwin and Lucy have served the people of Addison County with their dedication to the fire service for generations. Darwin joined the Bristol Fire Department September 2, 1981. He faithfully and diligently served the department for almost thirty-five years, including two terms as second assistant chief. Darwin grew up in a home committed to serving the community. He served with his father Robert, and his mother Rita who was one of the primary red phone operator/dispatchers for years. Darwin also enjoyed the opportunity to serve alongside of his son Jarrett in Bristol for several years, in addition to his brothers Stephen and Marcel who served other departments in the county as well.

Darwin served beyond the Bristol Fire Department in many capacities, including as the first volunteer firefighter appointed to the Vermont State Fire Coalition. Darwin loved traditions, and one of his favorites was the Addison County Regional Fire School. Darwin served on the Addison County Training Committee and then went on to become a safety Officer. Darwin, Tony Carusso, and Dave Bowles have travelled many miles assuring the safety of all school participants.

In the fire service we train and hold one another accountable to working in pairs, no one works alone. Darwin's longest running partner was his wife Lucille. As Darwin's wife, Lucy along with their daughters Kathie and Kristie always made sure Darwin's keys, caps, and coats were right where he needed them, just in case he had to leave quickly. Lucy and Darwin worked side by side in many ways through the years and the Regional Fire School was one of them. Lucy shares her skills as a bus driver every year. She has carried countless firefighters safely from classrooms to the field and back as they learned new things. She has extended that service to countless other firefighters, by busing them from funeral services to gravesites during county firefighter funerals. More important than what Darwin and Lucy have done, is the way they have served. It has always been in a committed, friendly, and life changing way. Their smiles, laughter, compassion, and understanding have always been and will be a source of strength and comfort for friends and strangers alike.

It is for these reasons and so many more that the 2017 Addison County Regional Fire School is dedicated to both Darwin and Lucille Kimball. While Darwin has answered his final alarm, his presence is deeply missed. As the county honors the tradition of this dedicated couple, we would like to extend our continued condolences and support to Lucy and her family.

## **TWO DAY COURSES**

### **A1 Introduction to Firefighting**

**Max 24 Students**

**2 Day**

This class is designed for rookie firefighters and cadets that have not taken Firefighter One. The course will help you become knowledgeable and helpful on the fire scene. The course will cover: Ladders, Hose loads, Ropes and Knots, Hose Streams and Hose handling, hand tools, PPE, changing air tanks and helping at staging. The course will be classroom and hands on.

**PERSONAL PROTECTIVE EQUIPMENT IS REQUIRED FOR BOTH DAYS. & FULL SCBA IF POSSIBLE**

**Instructors: Chief Tom Estey, Starksboro FD will be the lead instructor assisted by other local instructors.**

### **A2 Basic Fire Pumps**

**Max 16 Students**

**2 Day**

This class is an introductory course on the basic theory and operation of centrifugal pumps. The course is designed to instruct the student in the various aspects of operating a pump, including the use of primers, relief valves and the various controls on a pump panel. The class will also touch upon some aspects of friction loss, relay pumping and flowing water to both hand lines and master streams. Topics will also cover working from both a draft and pressurized systems. Each student will be given an opportunity to use the skills learned during actual pumping conditions.

**PERSONAL PROTECTIVE EQUIPMENT IS REQUIRED FOR BOTH DAYS.**

**Instructors: Retired Chief Mark Bouvier, Bristol Fire Department and Retired Assistant Chief Peter Coffey, Bristol Fire Department.**

### **A3 Vehicle Extrication**

**Max 20 Students**

**2 Day**

This course meets the NFPA 1670 standard for operations level vehicle extrication. Students will learn about modern vehicle construction, SRS components, Hybrid, electric and alternative fueled vehicles, along with techniques for safety extrication victims. Field work will include stabilization, glass management, 12 volt disconnect, door removal, roof removal, dash displacements and more! We will discuss and execute work around techniques for Ultra High Strength Steel and Boron.

**PPE: DEPARTMENT APPROVED EXTRICATION GEAR OR FULL STRUCTURAL BUNKER GEAR. SAFETY GLOVES, EYE PROTECTION, HELMET, AND STEEL TOED BOOTS REQUIRED. MUST BE 18 YEARS OLD.**

**Instructors: Middlebury Regional EMS Heavy Rescue Team, Kirk Gallipo, Donnie Sweet, Ryan Emilio.**

### **A4 High Angle Rescue**

**Max 20 Students**

**2 Day**

This course is designed to take students from basic over-the-bank rescues to progressively more vertical scenarios. Students learn and practice such skills as preplanning, size-up and scene management, ascending and descending, belaying, mechanical advantage systems, lowering and raising systems, patient packaging and litter attending. Safety will be of the utmost importance. Instructors will have the right to remove a student from the program if they create an unsafe situation. Basic rope knowledge preferred.

**PPE: LONG PANTS, GLOVES, HELMET AND RAIN GEAR REQUIRED. ROPE HARNESS, HARDWARE AND EQUIPMENT CAN BE USED AFTER BEING INSPECTED AND APPROVED BY THE INSTRUCTORS.**

**Instructors: Shawn Emerson and Don Uhler, Saranac Technical Rescue**

### **A5 Firefighter Strategy and Tactics in Strip Malls**

**Max 40 Students**

**2 Day**

This course consists of an interactive lecture and Hands-On Training, covering strategies and tactics of strip malls and 'taxpayers'. There will be eight instructors which means students will be very active for both days. Topics include but are not limited to Engine Company operations regarding fire attack and extinguishment, line selection, line placement, crew responsibilities, and utilizing fire suppression systems. Also included are Truck Company operations such as forcible entry on multiple types of doors and windows, ventilation, and large area search techniques.

The lecture portion of this course includes situational awareness for the Incident Commander, Company Officer, and line firefighters. Other topics include building construction, suppression systems, safety and survival techniques, and in-depth coverage of strategy and tactics for strip malls

**PERSONAL PROTECTIVE EQUIPMENT IS REQUIRED FOR BOTH DAYS. MUST BRING FULL SCBA AND SPARE BOTTLE**

**Instructors: 8 New England F.O.O.L.S (Fraternal Order of Leatherhead Society) instructors will teach this course.**

**A6 Incident Safety Officer - National Fire Academy Program (16 Hours) Max Students 30 2 Day**

The goal of this course is to provide students with the knowledge and skills needed to perform the duties of the Incident Safety Officer (ISO) during incident operations and training evolutions. This course is an incident-specific, scenario-oriented course designed to teach students what an ISO needs to know at an incident. The course uses instructor-led discussion, multimedia activities, and small group discussions to convey instructional points. This course is designed for fire and emergency medical services (EMS) responders who may be designated by the Incident Commander (IC) as an ISO while working within an Incident Command System (ICS). These assignments may occur during firefighting, EMS, special operations incidents, and training evolutions. The completion of ICS 100 & 200 is recommended prior to taking this course.

**Instructor: Vermont Fire Academy**

**Minimum class size: 15 Vermont Fire Academy Application must be submitted to Pittsford as well**

**This form is included and can be found electronically at:**

**<http://firesafety.vermont.gov/academy/forms>**

**A7 Water Rescue Technician**

**Max 24 Students**

**2 Day**

**\*\*Cost 125 for entire class with certification from Life Savings**

This will be a fast paced class with more time in the water than out.

It will primarily concentrate on static water rescue with Rescue Swimmers come rested and ready to learn.

**Subjects and/or practical evolutions include the following:**

- Physiology/Mechanisms of Drowning
- Principles of Water Rescue and Survival
- Threat Analysis and Pre-Incident Planning
- Types and Uses of Personal Flotation Devices
- Shore-based Non-swimming Rescues
- Basic Contact and Swimming Rescues
- Cold Water Rescue and Survival
- Ice Rescue and Survival
- Firefighting in and around Water
- Firefighter Survival in the Water
- Management of Aquatic Spinal Injuries
- Personal Defense and Survival Maneuvers
- Incident Command

Individuals who participate in a Water Rescue Technician Course and who successfully complete the classroom session and the final written examination, but who cannot participate or successfully complete the practical session, will be awarded a Water Rescue Awareness certificate.

**Practical sessions that must be completed to be certified as a technician:**

- 50 yards with no PFD, any stroke.
- Swim continuously 100 yards while wearing a PFD.
- While in deep water, remove the PFD, surface dive to a depth of 9', recover a 10lb brick and bring it to the surface.
- Support a 10 lb brick at the surface of the water, using legs only, for 1 minute.
- Surface dive and swim a distance of 35 feet underwater.

**PPE and other required equipment:** bathing suit, long pants, t-shirt, tennis shoes or wetsuit booties, dry clothing & towel, high energy snacks. Also if available water rescue (or skate board) helmet and PFD.

If not available please let us know, some will be available for use.

**Instructor: Chief Dick St. George, Charlotte Fire and Rescue.**

## **SATURDAY COURSES**

### **B1 In For the Long Haul Training: Max: 40 Student Saturday or Sunday**

The "In For the Long Haul...Bunker Gear for the Mind" training covers how to prepare mentally, emotionally and spiritually for a life-long career of exposure to trauma. It is an interactional training that will encourage participants to be pro-active in their own emotional wellness; impacting their own wellness as well as their families and departments. You may check out a video preview course of this class at:

<https://youtu.be/aL5AjKj6VOc>

**Steve Calvert**

**Assistant Chief of Chaplaincy Services, Coppell Fire Department,**

**Director, Champion Responders, Inc.**

**President, Texas Corps of Fire Chaplains**

### **B2 Alternative Fueled Vehicle Course Max 20 Students Saturday or Sunday**

Our Alternative Fueled Vehicle course covers the basics of identification, proper response, types of steels, dangers associated with these and the newer vehicles and basic extrication locations (no hands-on as we do not have people willing to give up their new vehicles). It is a one-day course with both classroom and outside vehicle familiarization (bunker gear is not required). We would recommend the course for fire officers from Lieutenant to Chief as they will be making the decisions on how to safely deal with these types of vehicles.

**Instructors: Todd Bedard & Jeff Limoge, Green Mountain Catamount Fire Training**

### **B3 Modern Research Translated to Today's Fire Attack Max 30 Students Saturday Only**

While most agree that the latest NIST and UL research can improve firefighter safety, however they have difficulty translating the research into fire ground strategies and tactics and implement that change in a successful manor within their department. This program will translate that research into understandable tactical terms and show how to apply it in your fire ground operations. You will not want to miss this program as ISFSI Past President, Chief Doug Cline, walks you through the evidence based research information while providing on site live fire demonstrations and relating it to modern fire ground tactics for everyone to use.

**Instructor: Chief Doug Cline, Horry County Fire Rescue**

**No PPE Required**

### **B4 Understanding Utilities for Firefighters Max 24 Students Saturday Only**

Electricity, Internet, Telecommunication, Water, Gas, Propane, Furnaces, HVAC, What is what? And where might you encounter them? What to do with them?

An encounter with any of these has the potential to be fatal.

This is an introduction to dealing with emergency scenes that may involve utilities and how to maintain scene safety. Visual recognition is key in recognizing these hazards.

Stay safe. Be able to recognize these hazards and how to deal with them.

**Instructor: Mike Gallas, Green Mountain Catamount Fire Training**

**Classroom Course Only**

***Saturday's Keynote Address will focus on the need to prepare firefighters for the long haul and will be presented by:***

**Steve Calvert**

**Assistant Chief of Chaplaincy Services, Coppell Fire Department,**

**Director, Champion Responders, Inc.**

**President, Texas Corps of Fire Chaplains**

## SUNDAY COURSES

### **C1 In For the Long Haul Training:**

**Max: 40 Student**

**Saturday or Sunday**

The *"In For the Long Haul...Bunker Gear for the Mind"* training covers how to prepare mentally, emotionally and spiritually for a life-long career of exposure to trauma. It is an interactional training that will encourage participants to be pro-active in their own emotional wellness; impacting their own wellness as well as their families and departments. You may check out a video preview course of this class at:

**<https://youtu.be/aL5AjKj6VOc>**

**Steve Calvert**

**Assistant Chief of Chaplaincy Services, Coppell Fire Department,  
Director, Champion Responders, Inc.  
President, Texas Corps of Fire Chaplains**

### **C2 Alternative Fueled Vehicle Course**

**Max 20 Students**

**Saturday or Sunday**

Our Alternative Fueled Vehicle course covers the basics of identification, proper response, types of steels, dangers associated with these and the newer vehicles and basic extrication locations (no hands-on as we do not have people willing to give up their new vehicles). It is a one-day course with both classroom and outside vehicle familiarization (bunker gear is not required). We would recommend the course for fire officers from Lieutenant to Chief as they will be making the decisions on how to safely deal with these types of vehicles.

**Instructors : Todd Bedard & Jeff Limoge, Green Mountain Catamount Fire Training**

### **C3 FIRE INVESTIGATION FOR THE FIRST RESPONDER**

**Max 20 Students**

**Sunday**

This course will give first responders insight on what to look for when on the fire ground and how to preserve the scene for the investigation. Often what you see upon scene arrival is valuable information for the investigation. A broad scope of fire causes will be discussed and the presentation will be interactive with you the student. NFPA 921, Videos, Report Writing, Four Basic Steps of Fire Investigation, State Statute pertaining to fire investigation and Evidence Spoliation issues will be presented in this classroom course. There will be an opportunity for investigation exercise.

**PPE: Full PPE Required. No SCBA**

**Instructor: Robert (Bob) Patterson, IAAI, CFI .Retired Assistant State Fire Marshal with the Vermont Division of Safety.**

## **SUNDAY 1/2 DAY COURSES**

### **D1 Active Shooter/Violent Intruders**

**Max 30 Students**

**½ Day Sunday Morning Only**

This training is designed to provide fire service personnel with an overview of law enforcement, school staff, and student response to an active shooter / violent intruder within our schools. This subject matter will also encompass other incidents where threat of an active shooter is present. From the fire scene with unknown or unexposed risk of home drug labs and those willing to attack responders in order to protect their property to the mass public shootings plaguing our country, this training will be a first step in interagency cooperation and understanding. "The fate of the injured often lies in the hands of the one who provides the first care to the casualty" (Arlington VA Fire).

Joshua Otey is a Police Officer in Bristol and Shelburne, Vermont. As a police officer, he has served communities of all sizes in Vermont, Illinois, and St. Louis, Missouri for twelve years. Joshua is a nationally recognized and certified Master Drug Interdictor and an instructor of the ALICE active shooter program.

**Instructor: Officer Joshua Otey, Bristol & Shelburne PD**

**Classroom only course**

### **D2 8 Attitudes of Servant Leadership**

**Max 30 Students**

**Sunday Morning Only**

Leadership begins with serving. No role, position, job, task or calling of leadership in Emergency Services can be effective unless there is first a willingness to serve by the individual. Many want successful positions, ranks and roles in leadership, but not everyone wants to serve. Proper serving in leadership begins with a proper attitude. This dynamic program will explore the 8 Attitudes of Servant Leadership as related to the fire service in an effort to focus the leadership efforts of officers in the right direction for high performance leadership.

**Instructor: Chief Doug Cline, Horry County Fire Rescue**

### **D3 Developing the Next Generation of Fire Service Leaders Max 30 Students Sunday Afternoon Only**

The focus is on creating a professional development model for your organization. This model consists of a planned, progressive, and lifelong process of education, training, self-development, and experience. Professional development is a critical element of leadership. When you step up to accept the responsibility of leadership, you also accept an obligation to continue your training, education, learning, and personal experience so that you improve your effectiveness. Fire service organizations must provide continual guidance to their personnel through a carefully crafted professional development plan that meets the specifics of the organization. During this program Chief Cline will show you how to develop a premier professional development plan for you and your department.

**Instructor: Chief Doug Cline, Horry County Fire Rescue**

## **GENERAL INFORMATION**

**To Be Held  
April 29<sup>th</sup> & 30<sup>th</sup>, 2016  
At  
Mount Abraham Union High School School  
220 Airport Drive, Bristol, VT**

**Proof of Insurance is required.**

**School opens at 7 A.M. Each student must pre-register on a separate registration form by April 8th, 2017. Classes run from 08:00 A.M. to 4:00 P.M. each day.**

**Incident safety Officer requires each applicant to submit a separate VT Fire Academy General Admission Application to the VT Fire Academy in Pitsford.**

**General Assembly will be in the auditorium at 8 A.M. on Saturday only.  
Sunday Classes start at 8:00 A.M.**

**Registration Fee: 2 day class \$110. 1 day class \$55.**

**½ Day Classes are \$30 and do not include lunch**

**The cost for two ½ Day Classes on Sunday is \$55 and Does include lunch.**

**LATE REGISTRATIONS: 2 Day class \$130, 1 day class \$75**

**Make Checks Payable To : ACFA**

**Lunch will be included with your registration. If you are only taking one half day course lunch is not provided.**

**Coffee, soda, and snacks will be available for sale during scheduled breaks.**

**For questions concerning registrations: [acfa.training@gmail.com](mailto:acfa.training@gmail.com)**

**Enrollment in courses after this deadline will be at the discretion of the Regional School Committee.**

**Protective Clothing and Equipment Needs: Please check the course description for the protective clothing/equipment needs note. Full PPE must be worn. THIS IS A REQUIREMENT, NOT A REQUEST.**

**A.C.F.A. TRAINING COMMITTEE  
Chairman: William Elwell, Bristol FD  
Tony Boulanger, Bridport FD  
Justin Allen, Salisbury FD  
Annie Conright, Vergennes FD  
James Goodyear, Bristol FD**

**47th ANNUAL ADDISON COUNTY REGIONAL FIRE SCHOOL  
REGISTRATION FORM  
SUBMIT ONE COPY (BOTH SIDES) FOR EACH ENROLLEE**

**Return one copy of this form for Each Enrollee. Be sure to complete both sides of this form. **FIRE CHIEFS: YOU MUST SIGN OFF ON EACH ENROLLEE CERTIFYING THEY MEET ALL PREREQUISITES OF THE COURSE YOU APPROVE THEM FOR. If they do not, they will be put into another class at the discretion of the Training Committee. COLLECT ALL FORMS AND SEND AS A GROUP BY APRIL 13TH 2015. PROOF OF INSURANCE IS REQUIRED.****
